

Proryb has a wide range of marinated and salted herring products from Kashubian style products based on tradition from the north of Poland to its south European salsa style products. There are typical rollmops and Bismarck products as well as artisanal rolls and bits in different sizes in many flavours. The salted products are of Matjes style and specific Milord smoked flavoured herring and salted herring bits in different flavours.

marinated and salted

A close-up photograph of several pieces of marinated and salted herring. The fish is cut into thick, rectangular slices. The top surface is covered in a vibrant red, chunky marinade, likely containing tomatoes and spices. The bottom surface is a lighter, silvery-grey color, possibly from a salt crust or a specific marinade. The pieces are arranged on a white surface, with soft shadows cast behind them.

marinated
and salted

Proryb has a wide range of marinated herring products both in vinegar and oil as well as salted products in different formats including: rolls, fillets, bits with different ingredients and flavours.

Packaging is in glass jars with a size of 240g, 400g or 500g, in plastic buckets of 800g, 1kg or 3kg or in plastic packs of 180g and 400g.

The shelf life is dependent on the production method and packaging style but most of the products in plastic buckets have about a 30 or 60-day shelf life and in glass jars mainly 90 or 120 days.

More detailed information about the products can be found on the company's webpage and part of the product range is presented below.
