

Proryb is well equipped with automatic lines for producing salads, spreadables and jellied fish. Most of the salads are based on herring while fish-based paste and jellies are also made from salmon, halibut, mackerel and cod.

salads, fish paste and fish in jelly

salads and fish  
in jelly

Proryb salads are available in easy opening plastic jars of 150g as well as 330g plastic jars with lids and then in big plastic buckets of 3kg. The fish-based paste and fish in jellies are packed in an easy opening plastic jar of 150g.

More detailed information about the products can be found on the company's webpage and part of the product range is presented below.
